Lord's Taverners Ireland are happy to support your members to become more active particularly those that may have a disability. We are glad to support the purchase of specific sports related equipment for athletes with disabilities. The purpose of this equipment is to support athletes to achieve their goals and reach their potential. However, to insure this equipment is utilized in the correct way, we request that if the equipment is not used, the equipment will be returned to Lord's Taverners Ireland.

Lords Taverners are happy that athletes other than the one the equipment was originally intended for have access to this equipment.
